

ServerSign™

ServerSign™ provides you with authentication, SSL encryption and added features. It is used for proving the identity and ownership of a domain name and for enabling confidential communication between a web server and the connected customers. ServerSign™ provides you with authentication, integrity, confidentiality and non-repudiation. All major web server software supports **SSL** or its successor **TLS** for securing server-to-browser connections.

- Free 15-day Certification Replacement.
- Free unlimited Certificate Revocation.
- One-day Express Turnaround.
- 24-hour e-mail support.
- Price: 225 Euro.

Features:

GlobalSign Liability Program™

ServerSign™ and HyperSign™ are backed by GlobalSign's Liability Program™, an extended liability and insurance scheme that protects you against economic loss resulting from theft, corruption, impersonation or loss of your certificate, with a liability cap of up to 37.500 Euro. This program is supported by one of the US' largest insurance companies.

'Secured by GlobalSign' Seal

Put the GlobalSign Seal on your homepage to give the necessary confidence to customers conducting business with your website. The seal allows your customer to check the info contained in your ServerSign™ or HyperSign™ Certificate and provides protection against the use of revoked or expired certificates. Take advantage of GlobalSign's trusted brand!

Free 15-day Replacement:

You are allowed to replace your certificate within 15-days free of charge.

Free unlimited Revocation Service

You are entitled to revoke your certificate at any time free of charge.

One-Day Express Turnaround:

GlobalSign is able to make sure your ServerSign™ or HyperSign™ Certificate is up and running within 24 hours after verification procedures.

24-hour e-mail support

Whenever you have a question on the use of your certificate, please consult our Certificate Knowledge Base online on www.globalsign.net or send your question to GlobalSign Certificate Support. We provide an answer within 24 hours.
